

On-surface Synthesis International Workshop (OSS16)

27.Jun - 30.Jun 2016

Cod. 113-16

Mod.:

Face-to-face

Edition

2016

Activity type

Workshop

Date

27.Jun - 30.Jun 2016

Location

Miramar Palace

Languages

English

Organising Committee

Fundación
BBVA

Description

Website of the Congress: <http://oss.dipc.org/>

On-surface synthesis unites the easy tunability of molecular materials and the promises of self-assembly as a revolutionary production method, with the sturdiness of covalently bonded structures. This most attractive combination is drawing the interest of a rapidly increasing number of researchers. Important efforts are being devoted to augment the still scarcely equipped on-surface synthesis toolbox, to improve our understanding of the chemical reaction mechanisms, as well as to the synthesis and characterization of new molecular architectures of potential use in diverse applications. Recent advances on these aspects will be reported at OSS16. Because on-surface synthesis bridges across the fields of chemistry, physics and materials science, OSS16 will promote scientific exchange between different research communities that overlap in this particular field.

Course specific contributors

Directed by

Dimas Garcia de Oteyza

Nanomaterials and Nanotechnology Research Center

Registration fees

REGISTRATION	UNTIL 28-04-2016	UNTIL 30-06-2016
INVITED SPEAKER	0 EUR	0 EUR
SCHOLARSHIP STUDENT	100,00 EUR	150,00 EUR
ATTENDANT	250,00 EUR	300,00 EUR

Place

Miramar Palace

Gipuzkoa
