BBVA

## Description

The course will consist of several seminars and computer practicals that will cover the main concepts introduced in the seminars. The school is part of a wider initiative "Passion For Knowledge" that will take to San Sebastian leading scientist around the world to share their research experience, like Nobel Laureate Prof. Martin Karplus, who will also participate in our school. The participants, therefore, will also benefit from an outstanding atmosphere and social activities around the school that will remark the links between science and society, in its more general sense. The school will be taught at the postgraduate level and is specially addressed to PhD students and postdoctoral researchers with a solid background in biophysics.
