

Frontiers in Quantum Materials and Devices (FQMD)

12.Jul - 14.Jul 2017

Cod. Z11-17

Mod.:

Face-to-face

Edition

2017

Activity type

Workshop

Date

12.Jul - 14.Jul 2017

Location

Miramar Palace

Languages

English

Academic Validity

20 hours

Organising Committee

Description

The workshop will focus on exciting discoveries in Atomic-scale Electronics, Photonics, and Quantum Information Science. Quantum materials offer dramatically new approaches for electronics and photonics, but their characteristics, and the techniques to make devices and interconnected systems are largely unknown. The Frontiers in Quantum Materials and Devices workshops address this challenge by bringing together experts in materials growth and characterization, device fabrication and testing, and theoretical modeling. Through interactive talks and discussions, they can develop the science and technology needed to advance the science and move toward applications.

Organizing committee:

Robert Westervelt. Center for Integrated Quantum Materials. Harvard University. Cambridge, MA 02138, USA

Daniel Loss. University of Basel. Basel, Switzerland

Vitaly Golovach. kerbasque Research Fellow. Materialen Fisika Zentroa CFM and Donostia International Physics Center. Donostia / San Sebastian.

Course specific contributors

Directed by

Vitaly Golovach

Ikerbasque Research Fellow, Materialen Fisika Zentroa CFM and Donostia International Physics Center, Ikerbasque Research Fellow

Naomi Brave

Center for Integrated Quantum Materials. Harvard University

Registration fees

REGISTRATION FEES	UNTIL 31-05-2017	UNTIL 02-07-2017	UNTIL 12-07-2017
INVITADO	0 EUR	-	-
Invited Speaker	-	0 EUR	-
Students	-	0 EUR	-
GENERAL	-	-	200,00 EUR

Place

Miramar Palace

Pº de Miraconcha nº 48. Donostia / San Sebastián

Gipuzkoa
