## **Description**

El Gobierno Abierto visto desde perspectivas y realidades culturales diferentes. Nuestro curso está enfocado a trazar una hoja de ruta útil para administraciones y organizaciones que quieran profundizar en esta disciplina. Intentaremos crear un clima participativo, para que asistentes y ponentes lleguen a un mínimo de 3 conclusiones por ponencia.

Open Government viewed from different perspectives and cultural or social realities. We aim to establish a useful road-map for administrations and organizations. In a relaxed atmosphere, speakers and attendees will share their points of view, to reach to a short-list of 3 conclusions by talk.

## **Objectives**

Analizar los retos, errores y aciertos más frecuentes en gobierno abierto.

Fomentar la cultura de la participación y de la colaboración ciudadana.

Generar debate más allá del curso entre personas participantes y ponentes.

United Kingdom. Open Government in context Can you do open government in isolation? Why do so many OG projects fail in terms of citizen take-up? Perhaps we need to place it logically and structurally in a wider framework which looks at the relationship between: (a) enterprise systems in government (b) internal transparency and business intelligence, ie GovTech (c) open government and transparency , ie CivicTech (d) community movements, grassroots innovation and hackers and makers ie CommunityTech.
