Description

La Ley Orgánica de Responsabilidad penal del menor, pese a llevar 22 años en vigor, resulta desconocida en todos los ámbitos, incluido el universitario. Dar a conocerla es el principal objetivo de este Curso de Verano.

Se analizará la evolución de la tipología delictiva en el ámbito del territorio vasco, en los últimos 22 años, debatiendo la influencia de las nuevas tecnologías en tipos penales como el acoso escolar, o el consumo de pornografía infantil, con la mirada puesta en el centro de reforma **Ibaiondo**.

En este Curso someteremos a debate el papel de la salud mental en la juventud y de las situaciones de desprotección como condicionantes del binomio víctima-agresor.

Además, se analizarán las diferencias entre centros de reforma y centros de protección y el diferente papel de cada uno de ellos, así como de los centros de protección públicos y privados.

Objectives

Dar a conocer el procedimiento de menores.

Mostrar la diferencia entre reforma y protección y los diferentes tipos de centros, así como las necesidades y requisitos para ingresar en ellos.

In collaboration with
