Description

The main objective of this proposal is to publicise experiences and proposals that are promoting milestones for inclusion based on linguistic and cultural practices in different institutions on both sides of the border. These proposals can serve as a tool to laminate cross-border areas and to initiate cross-border research projects to build bridges between language and culture in the context of a minority language.

Understanding linguistic diversity as a key to inclusion can be enriching, fostering linguistic and cultural links and promoting respect for languages. On the path towards linguistic normalisation, in this case Basque, in a cross-border territory that has a long way to go, it is important to create spaces for exchange that allow us to learn, in a context of diversity, what kind of relationships need to be created while respecting the diversity of languages, so that Basque continues to advance in its normalisation process.

Likewise, the role of children, adolescents and young people in coexistence with minority languages is of vital importance. In order to encourage the use of languages, it is essential to promote spaces for participation and communication strategies, in line with motivation and attitude. It is also essential to evaluate and research these learning experiences, but through techniques adapted to children and adolescents. We will therefore focus on how we can integrate the inclusive approach in the research, interventions and projects we carry out and how to make the participants protagonists in these processes. This course will therefore focus on the aspects to be addressed from an inclusive perspective in order to give voice to the protagonists and promote language learning and use.

In short, we will present experiences of research and education with languages at school, analysing the challenges and good practices that are being carried out in this context. We would also like to be creative laboratories for new proposals for cross-border education and research.

Objectives

Hizkuntzen ikaskuntza eta irakaskuntza parte-hartze aktiboan oinarrituta mugaz bi aldeetan sustatu duten esperientziak ezagutzea, beraien mugaz gaindiko potentzialtasuna aztertuz.

Hizkuntzen ikaskuntza eta irakaskuntza inklusiotik bultzatzeko tresnak eta baliabideak eskaintzea.

Ikerketetan, esku-hartzeetan eta burutzen ditugun praktiketan hizkuntz aniztasunaren ikuspegia txertatzeko bideak ezagutzea, bereziki hizkuntza gutxituetako testuinguruetan.

Hizkuntzen ikaskuntzak eta erabilerak mugaz gaindiko harremanak lantzeko dituen erronkak ezagutzea.

16:15 - 16:30	Synthesis

Directed by

Nahia Idoiaga Mondragon

UPV/EHU

Dr. Nahia Idoiaga Mondragon holds the PhD in psychology (with honour), degrees in psychology and educational psychology and two master's degrees (Teachers Training & Research Methodology). Framed on social and educational psychology she has researched and published impact articles on topics related to socio-educational inclusion, education, feminism and health. In the field of research, she is part of the research group KideON. She is also part of several projects, most of them European funded, working on the inclusion of young people and vulnerable groups. At a teaching level, she is professor in the Department of Evolutionary Psychology and Education and in her teaching subjects is implementing IKD methods (problem based learning and dynamic and cooperative learning). In addition, she is PhD. Co-director enrolled in the Doctorate programmes in Psychology and Psychodidactics at the UPV/EHU. She is also Vice-Dean of Undergraduate, Postgraduate and Final Degree Projects at the Faculty of Education in Bilbao.

Teachers

Israel Alonso Sáez

Universidad Del País Vasco

Dr. Israel Alonso Sáez holds the PhD in Pedagogy (with honour), degrees in Social Education and Pedagogy and one master's degree (Special Education). Since 2011 she works in the Department of Didactics and School Organization in the Degree in Social Education and Teaching. Previously, he has worked as an Educator in the intervention and coordination of social projects with excluded people. He has participated in several teaching innovation projects related to interdisciplinary learning and tutorial action. And also in twon R + D + I projects of the MINECO and two Erasmus research projects related with youth and child inclusion being co-principal investigator. He is member of "KideOn" Research Group of the Basque Government (Ref.: IT1342-19 / "A" category). He has also worked as a visiting professor at the Universities of Italy, French, Ecuador and Chile.

Naiara Berasategi Sancho

Universidad del País Vasco

Graduated in Primary Education, Master in Special Education, Sociologist, Politologist and Doctor with international mention from the University of the Basque Country. Since 2007 he works in the Department of Didactics and School Organization in the Degree of Social Education and Teaching. He has teaching and research experience in various subjects related to the field of social and educational inclusion, specifically in the immigrant population, youth and children, women, the elderly and people with special educational needs. He has previously worked on the design and evaluation of quantitative and qualitative projects. He has done several educational innovation projects related to interdisciplinary learning and tutorial action. And also in MINECO R&D projects and Erasmus and University Society (UPV/EHU) research projects being co-principal investigator. He has also made stays as a visiting professor at the University of Reno-Nevada, University of Malta and University Colleague Dublin

Amaia Eiguren Munitis

Bilboko Hezkuntza Fakultatean Didaktika eta Eskola Antolakuntza Saileko irakaslea (Leioa, UPV/EHU). Euskal Herriko Unibertsitatean (UPV/EHU) Doktorea da eta baita Gizarte Langintzan diplomatua (2015), Irakaslea Lehen Mailako Heziketa Espezializazioarekin (2013) eta Gizarte Hezkuntzan Graduatua (2017). Bere ikerketa arloa belaunaldi arteko harremanak dira nagusiki baita haur eta helduen ongizatea ere. Gizarte Hezitzaile bezala esperientzia luzea kolektibo desberdinekin, gehien bat zaurgarritasun eta babesgabetasun egoeran dauden haurrekin.
