Description

Basque dance is an effective instrument to get closer to Basque culture and to structure community within it, but it is even more powerful and effective among Basques in the diaspora. Therefore, body language offers an excellent opportunity to connect both communities and promote Basque culture.

Precisely, because we need a strong Basque Community which has presence in the world, we started in 2023 the Ateak Ireki project (www.ateakireki.eus). This program aims to strengthen relationships between young people from the Basque diaspora and those from Euskal Herria. In 2023 and 2024, about 40 young people of Basque origin moved to Goierri for a three-week stay with their Gipuzkoan host families. Together with Maizpide Euskalategi, special courses were organized to learn Basque and Basque culture.

These young people from the United States showed their interest in reinforcing the offer of Basque dance courses. For them, Basque dance is one of the most important exponents of their Basque identity. Taking into account this demand, along with the benefits of dance in the training of young people and the possibilities it offers to access Basque culture, Ateak Ireki Dantzan - Dancing Summer Course was organized in 2024. Youngsters from Goierri took also part, and they started establishing relationship among them.

This Summer Course will address the theoretical and practical aspects, and it will mainly use English and Basque. The main sessions will be offered by expert teachers of Basque dance, and participants will also have the chance to live the dance in the ritual context of a Basque festival. The course is organized together with the Dantzan Ikasi program which is devoted to the continuous training of Basque dance teachers. Dantzan Ikasi is a program of the Provincial Council of Gipuzkoa with a 15-year history.
