Description

Hezte prozesuan irakasleen artean dagoen harremanaren eta haren izaera pedagogikoaren inguruko hausnarketa abiatzea da Uda Ikastaro honen helburu nagusia. Irakasleek heziketa prozesuaren funtsezko katebegia osatzen dute, eta eskola testuinguruan beste eragile zein agente batzuekin (familiak, ikasleak, komunitatea...) harremanak izatea ezinbestekoa den neurrian, irakasleek haien lankideekin eraikitzen dituztenak ere aintzat hartzekoak dira. Ezinezkoa da irakasle lanbidea harremanik gabe ulertzea.

Harremanek, gainera, eskola testuinguruan izaera pedagogikoa dute, elkarrenganako eragina dakartelako berekin eta pertsona bat edo gehiagoren arteko etengabeko elkartrukea delako. Hezkuntza fenomeno etikoa da, eta hezkuntza eremuko aktoreen arteko etengabeko harremana du ezaugarri: ikasleekin, familiekin, beste irakasleekin, jangelakoekin... izaten diren harremanek eta haien izaerek antzaldatzeko gaitasuna duten neurrian, balio sinboliko nabarmena dute eta eskola birdefinitzeko gakoak dira.

Edozein aldaketa, berrikuntza edota hobekuntza sustatzeko orduan, ekimen horiek harreman mapa baten gainean proposatzea beharrezkoa eta ezinbestekoa da: izan ere, nola aldatu zerbait aldaketa hori gauzatu behar duten eragileak ez badaude eros? Eskolan dauden askotariko elkartrukeak kontuan hartzeak prozesu demokratikoagoak eta sakonagoak bideratzea ahalbidetzen du. Harreman txarren testuinguru batean askoz ere konplexuagoa da berrikuntza bat abiatzea, konfiantza faltak, aldaketarako erresistentziak edota inertzia txarrek prozesua oztopatzen dutelako. Harreman osasuntsuek, aldiz, irakasleen arteko lankidetza sareak sustatzen dituzte, harreman horizontalei esker, errealitate bati erantzun eranginkorrik emanetik eta beharrak zehaztasunez identifikatuz. Hala, egokitzen zaizkion erronken aurrean, irakasleak erantzunak emateko jarrera proaktiboa izango du.

Honenbestez, harremanek eskolako klima eraikitzen dute, bertan arnasten den airea nolakoa den baldintzatz; halaber, eskolako ohituretan, identitatean eta estiloan ere eragina dute. Ikuspegi inklusibo batetik, harremanak sormenerako eta heztek espazio ere badira, bestearekiko jarrera enpatikoa eta ulerkorra eraikitza ahalbidetzen dutelako, elkarrenaganako aintzatespena eta zenbaitetan ikusezin diren horien ikusgarritasuna posible eginez.

Harremanak ez dira elkartruke soil bat; harremanak balio sinbolikoa duten konektoreak dira. Askotan ikusezinak diren arren, eta horrek konplexuagoa egiten badu ere, horiek zaindu eta elikatzeko plana beharrezkoa da. Zentzu horretan, badira harremenei dagokionean identifikatuko ditugun bi une kritiko: batetik, irakasle hasiberrien kasua eta bestetik, irakasleen garapen profesionalari dagokiona. Biek zuzenean eragiten diete harremenei, eskolako klimari eta heziketako kulturari, edozein aldaketa prozesuren arrakasta lortzeko gako bilakatuz.

Objectives

Irakasleen arteko harremanen zein haien izaera pedagogikoaren inguruan hausnartzea.

Harremanek eta haien konplexutasunak zein interdependentziak duten eraginaren inguruan gogoeta egitea.

Harremanen inguruko analisi hau irakasleen bizenetik esperientzietatik abiatuta garatzea.

Harreman osasuntsuak eraitzeko eskola testuinguruan aintzat hartu beharreko dimentsioak identifikatzea eta horiei aterabidea emateko proposamenak garatzea.

Eskola beste parametro eta egitura batzuetatik pentsatzeko proposamen eraldatzaileak pentsatzea, irakaslea eta bere zaintza erdigunean jarriz, eta hezkuntzako praktiken gaineko azterketa kritikoa sustatuz ikuspegi holistikoago batetik.
