COVID-19

The face-to-face activities will take place from the month of July, as long as the situation allows it. Meanwhile, we offer the possibility of taking courses online and live online through the Zoom and Moodle digital platforms.

No specific measures have been published to this period, since they will be defined according to the evolution of the situation, but we have already planned some measures and they will be adapted as the date approaches:

- Minimal distance
- Capacity
- Hydroalcoholic gel
- Protection equipment
- Signaling
- Different entrances and exits
- Signaled itineraries

When sending course reminders, each participant will receive detailed information on the subject in their email and the necessary information will be provided from the Secretariat to be able to take the courses with all the health and safety guarantees.

Following the advice of the health authorities, in this edition there will be no paper documentation nor will the usual activity guide be printed.
