

Scoliosis and Posture

03.Sep - 04.Sep 2018

Cod. 010-18

Mod.:

Face-to-face

Edition

2018

Activity type

Summer course

Date

03.Sep - 04.Sep 2018

Location

Miramar Palace

Languages

Spanish Basque

Academic Validity

20 hours

Organising Committee

Fundación
BBVA

Description

Scoliosis is a morphological alteration of the spine and thorax that can begin its development at different times of growth and even in adulthood. 80% of scoliosis are not associated with a specific pathology, so they are called idiopathic.

It is important to make an early detection of scoliosis, being able to detect the first signs at home, by the mother and the mother, as postural alterations where one shoulder is seen higher than another, one hip higher than the other, a prominence in the back or different asymmetries in the posture, being then confirmed by the specialist doctor and taking an x-ray.

The therapeutic alternatives are initially based on a conservative treatment through specific physiotherapy exercises for scoliosis and the development and manufacture of an individualized and customized corset. In the event that scoliosis continues to progress and worsen the treatment should be surgical.

Therefore, early detection and the correct choice of physiotherapy exercises, as well as the corrective corset, are a basis for avoiding surgery.

Objectives

Know the most important aspects of the human posture for the prevention of musculoskeletal injuries and deformations of the spine.

Describe the most important postural alterations at the level of the spine, as well as the possible vertebral deformations

Recognize and detect in the family environment the warning signs of scoliosis that favor an early diagnosis by the specialist doctor.

Address different conservative treatments for postural alterations and scoliosis.

Course specific contributors

Program

03-09-2018

09:00 - 09:15	“Entrega de documentación / Dokumentazio banaketa” Garikoitz Aristegi Racero Scoliosis & Posture Center - Fisioterapeuta doctor Angel Bidaurreazaga Vandierdonck UPV/EHU - Profesor
09:30 - 10:20	“Descripción de la postura humana. Anatomía y Postura.” Angel Bidaurreazaga Vandierdonck UPV/EHU - Profesor
10:20 - 11:10	“Alteraciones posturales, síntoma-dolor y repercusión en las actividades de la vida diaria” Garikoitz Aristegi Racero Scoliosis & Posture Center - Fisioterapeuta doctor
11:15 - 11:30	“Mesa redonda: debate y preguntas” Angel Bidaurreazaga Vandierdonck UPV-EHU - Profesor Garikoitz Aristegi Racero Scoliosis & Posture Center - Fisioterapeuta Doctor
11:30 - 12:00	Break
12:00 - 12:50	“Desviaciones de la columna vertebral. Escoliosis idiopática del adolescente. Evaluación clínica, radiológica y diagnóstico. “ Ana Lersundi Artamendi Hospital Universitario Donostia - Médico Traumatólogo. Profesor de la UPV-EHU
12:50 - 13:40	“Tratamiento de la Escoliosis. Modelo integral basado en la International Barcelona Scoliosis Physiotherapy Society (IBSPTS)” Manuel Rigo Caldito Instituto Elena Salva - Doctor en Medicina y Cirugía
13:45 - 14:00	“Mesa redonda: Debate y preguntas” Ana Lersundi Artamendi Hospital Universitario de Donostia - Médico Traumatólogo. Profesor de la UPV-EHU Manuel Rigo Caldito Instituto Elena Salva - Doctor en Medicina y Cirugía

04-09-2018

09:15 - 10:00	“Tratamiento conservador de la Escoliosis idiopática mediante el empleo del corsé Rigo Cheneau y ejercicios específicos de fisioterapia” Manuel Rigo Caldito Instituto Elena Salva - Doctor Medicina y Cirugía
10:00 - 10:45	“Demostración práctica del tratamiento conservador de la Escoliosis mediante ejercicios específicos de fisioterapia basados en la IBSPTS” Garikoitz Aristegi Racero Scoliosis & Posture Center - Fisioterapeuta Doctor
10:45 - 11:00	“Mesa redonda: debate y preguntas”

11:00 - 11:30

Break

11:30 - 12:15

“Tratamiento conservador de la escoliosis del adulto (presentación telemática con traducción)”

Jeb McAvaney Scolicare - Doctor en Quiropraxia

12:15 - 13:00

“Tratamiento quirúrgico de la escoliosis.”

Ana Lersundi Artamendi Hospital Universitario Donostia - Medico traumatólogo. Profesor UPV-EHU

13:00 - 13:15

“Mesa redonda: debate y preguntas”

Ana Lersundi Artamendi Hospital Universitario Donostia - Medico traumatólogo. Profesor UPV-EHU

Garikoitz Aristegi Racero Scoliosis & Posture Center - Fisioterapeuta Doctor

13:15 - 14:00

“Conclusiones: abordaje integral y multidisciplinar de la escoliosis”

Manuel Rigo Caldito Instituto Elena Salva - Doctor Medicina y Cirugía

Ana Lersundi Artamendi Hospital Universitario Donostia - Medico traumatólogo. Profesor UPV-EHU

Garikoitz Aristegi Racero Scoliosis & Posture Center - Fisioterapeuta Doctor

Angel Bidaurrezaga Vandierdonck UPV-EHU - Profesor

Directed by

Angel Bidaurrezaga Vandierdonck

Facultad de Medicina y Odontología

Bachelor of Medicine and Surgery (1986). Doctor in medicine (1995). Participation in education courses (40). 29 years as a teacher in the medical school of the UPV / EHU. \$ months of work as a doctor in Osakidetza. 2004-5 Direct from Bizkaia campus. (years in the governing council of the UEU) Assistant of the Chair of Quality of the UPV / EHU: courses of efacilitador, coordinator, groups of improvement (Galeno, itxura, argia) ... Organizer of 3 congress and 4 scientific days. Publications: Encyclopaedic scientific journals: 12 Disclosure articles: 14 Communications to congresses: 18 Books: 12 Research projects: 17 Teacher in other courses: 24

Teachers

Garikoitz Aristegi Racero

Scoliosis and Posture Center

Fisioterapeuta. Lic. en Kinesiología y Fisiatría (UBA). Dr. en Epidemiología y Salud Pública. Técnico Ortoprotésico Miembro del Comité Educativo de la SOSORT (Sociedad Internacional para el tratamiento ortopédico y rehabilitador de la Escoliosis) Coordinador Académico y Docente de Postgrado del Título Propio Terapia Manual y Postura UPV/EHU. Docente del Postgrado Especialista en Ortopedia del Título Propio UPV/EHU. Profesor Internacional de la Barcelona Scoliosis Physical Therapy School (BSPTS-Concept by Rigo). Terapeuta SEAS (Ejercicios de especialización del tratamiento de la Escoliosis - ISICO). Director de la Clínica de Fisioterapia Scoliosis & Posture Center

Ana Lersundi Artamendi

Lic. en Medicina. Especialista en Cirugía Ortopédica y Traumatológica Traumatólogo especialista en Columna Vertebral Hospital Universitario Donostia. Traumatologo especialista en Cirugía de Columna. Quironsalud Donostia. Profesor asociado Facultad de Medicina UPV/EHU Miembro de la Red Española de Investigación de las dolencias de espalda Miembro de la Sociedad Española para el Estudio de Enfermedades del Raquis (GEER) Miembro de la North American Spine Society (NASS)
