## Description

In 2D materials, essentially everything takes place on the surface and, consequently, SPM techniques have produced some of the most exciting works in these unique materials. We believe a focused 2DSPM conference will represent a very stimulating environment facilitating the easy flow of knowledge and ideas among participants. After the success of the first edition, 2DSPM has been consolidated in a biennial basis conference. In this 2022 edition, we will have 26 invited speakers and additional participants who will contribute with short talks and posters.

### ORGANIZING COMMITTEE:

#### Chairs:

*Miguel Moreno Ugeda* (DIPC, CFM-MPC, Spain)

*Iván Brihuega* (IFIMAC / UAM, Spain)

#### Scientific Committee:

*Miquel Salmerón* (LBNL, US)

*Cristina Gómez-Navarro* (UAM/IMDEA)

*Mike Crommie* (UCB / LBNL, US)

*Sara Barja* (UPV-EHU)

#### Technical Committee:

*Eva Cortés-del Río* (UAM, Spain)

*Diego Expósito* (UAM, Spain)

*Wen Wan* (DIPC, Spain)

*Rishav Harsh* (DIPC, Spain)

### Objectives

The aim of the conference is to bring together a leading group of 40-50 researchers, in addition to students, postdocs and other participants to share the latest contributions made by SPM in the field of 2D materials.
