Organising Committee

Description

The most prosperous societies are the most integrated and cohesive, those that share a social contract of basic principles, values and priorities.

At the current global crossroads, this is an even greater necessity, and the 2030 Agenda is a universal reference for a sustainable and caring world. It is an opportunity to renew our social contract.

In this framework of uncertainties and difficulties, the document of Bases and Legislature Work Plan of the General Secretariat for Social Transition and Agenda 2030 of the Basque Government defines, in terms of its diagnosis, the need to reinforce a culture of social contract; and in terms of its mission, the priority of orienting this social contract towards a commitment to collaboration.

The same diagnosis applies to the Basque Priorities Programme of the 2030 Agenda. The SDGs are an unbeatable opportunity to promote a culture of social contract based on commitments to sustainability and solidarity.

In order to emerge from the current situation in better conditions and with greater cohesion, it is essential to reinforce the culture of social contract in the Basque Country and to make its consensus more solid and broad. In this perspective, the 2030 Agenda becomes a universal reference for sharing a sustainable world.

The 2030 Agenda can be the basis and the core of the renewal of our social contract.

Objectives

Identify consensus for a new social contract based on the 2030 Agenda.

Identify consensus for a new social contract based on the 2030 Agenda.

Explore opportunities to renew our social contract based on the 2030 Agenda.

Reflect on the challenges and opportunities that the 2030 Agenda represents from multi-level and multi-actor governance.

Contrast and prospection of principles and values necessary to reinforce the culture of social contract.

Contribute to the strengthening and greater assumption of a leading role in favour of the 2030 Agenda in the Basque Country from the different agents.
