Description

Systemic autoimmune diseases (SAD) continue to be a big challenge for clinicians, given their complexity, clinical variability and potential impact in the life of patients, many of them young women.

Over the last 7 years, the Autoimmune Diseases Units from Cruces and Bordeaux University Hospitals have established a collaborative clinical and research program, including joined Lupus-Cruces and Lupus-Bordeaux research projects and annual Basque Lupus Seminars at Baiona.

In the 2018, 2019 and 2021 editions of the University of the Basque Country Summer Courses at Donostia (the 2020 course was unfortunately cancelled due to the COVID-19 pandemic), we have contributed with the course **Enfermedades Autoinmunes Sistémicas / Systemic Autoimmune Diseases**. It has been conceived as a practical course, remarking the importance of a collaborative multidisciplinary approach and including real-life clinical situations from our two Units with an interactive approach.

This proposal for the 2022 edition follows the same scheme than the 2021 course, with agile round tables, short and frequent breaks and plenty of room for debate among speakers and assistants. As in previous editions, we include a section of clinical images and another of challenging clinical case presentation and discussion based on daily practise, with the aim of stimulating the participation of attendees.

Objectives

To update the diagnostic process and clinical management of the different SAD.

To remark the importance of multidisciplinary team work.

To discuss with the attendants real-life clinical cases with an eminently practical approach.

Program

17-06-2022

16:15 - 16:30	Registro y entrega de documentación
16:30 - 16:35	Presentation by the Director of the activity Guillermo Ruiz Irastorza HU Cruces - Unidad de Enfermedades Autoinmunes
16:35 - 17:25	MESA REDONDA 1. ENFERMEDAD INTERSTICIAL PULMONAR AUTOINMUNE “16:35-16:50 Presentación clínica y estudios funcionales” Marta García Moyano HU Cruces - Sº Neumología “16:50-17:05 La TC pulmonar: una herramienta fundamental” Marta Lázaro Serrano HU Cruces - Sº Radiodiagnóstico “17:05-17:20 Tratamiento de la enfermedad intersticial pulmonar autoinmune” Cristina Gonzalez de Echavarri HU Cruces. - Unidad de Enfermedades Autoinmunes
17:20 - 17:30	Discusión
17:30 - 17:40	Break
17:40 - 18:30	MESA REDONDA 2. ESCLERODERMIA & MIOSITIS “17:40-18:00 Tratamiento de la esclerodermia” Daniel Martín Iglesias HU Cruces - Unidad de Enfermedades Autoinmunes “18:00-18:20 Tratamiento de las miopatías inflamatorias” Victor Moreno-Torres Concha HU Puerta de Hierro-Majadahonda - Sº Medicina Interna
18:20 - 18:30	Discusión
18:30 - 18:40	Break
18:40 - 19:00	“18:40-19:00 Una imagen vale más que mil palabras” Nerea Agesta Sánchez HU Cruces - Sº Dermatología

18-06-2022

09:30 - 10:20	MESA REDONDA 3. STRANGER THINGS “ 09:30-09:50. Síndrome antifosfolípido catastrófico” Jimena Varona Pérez HU Cruces - Sº Medicina Interna
---------------	--

	“ 09:50-10:10 Disautonomías autoinmunes” Juan Carlos Gómez Esteban HU Cruces - Unidad de Disautonomías. Sº Neurología
10:10 - 10:20	Discusión
10:20 - 10:30	Break
10:30 - 11:20	MESA REDONDA 4. LUPUS ERITEMATOSO SISTEMICO “10:30-10:50 Las pequeñas otras cosas del lupus” Mónica Ferreiro Montenegro HU Cruces - Unidad de Enfermedades Autoinmunes “10:50-11:10 El ABC del tratamiento del lupus” Guillermo Ruiz Irastorza HU Cruces - Unidad de Enfermedades Autoinmunes
11:10 - 11:20	Discusión
11:20 - 11:30	Break
11:30 - 13:00	Round table: “MESA REDONDA 5. CASOS COMO LA VIDA MISMA.” Leonor Acha Isasi HU Cruces - Sº Medicina Interna Marina Torío Salvador HU Cruces - Sº Medicina Interna Adriana Soto HU Cruces - Unidad de Enfermedades Autoinmunes Ioana Ruiz Arruza HU Cruces - Unidad de Enfermedades Autoinmunes
13:00 - 13:05	Closing session Guillermo Ruiz Irastorza HU Cruces - Unidad de Enfermedades Autoinmunes

Juan Carlos Gómez Esteban

Juan Carlos Gomez-Esteban, MD, PhD, is the director of the Neurodegenerative Disease Group at Biocruces Health Research Institute (Baracaldo, Spain); full-time lecturer in the Department of Neurosciences of the University of the Basque Country (UPV/EHU); and consultant in the Movement Disorders and Autonomic Disorders Unit at Cruces University Hospital (CUH). He majored in medicine at the UPV/EHU, specialized in neurology at CUH and received his PhD in neuroscience from UPV/EHU in 2008, after which he performed a postdoctoral training in the Autonomic Center of New York University. His research interests include the autonomic nervous system, movement disorders, and Parkinson's Disease's pathophysiology and genetics. Dr. Gomez-Esteban co-directs the group of Movement Disorders and Autonomic Disorders Unit at CUH, which pioneered the identification of the E46K mutation of the alpha-synuclein gene in 2004, a paper that has already 1726 citations. His group is highly focused on phenotypic characterization of genetic variants of Lewy body diseases. His research group has 10 ongoing research projects and in the last 5 years Dr. G mez- Esteban has obtained continuous financial support for research. During this period, he has published 40 research articles with a cumulative citation index of 223 (excluding self-citations).

Cristina Gonzalez de Echavarri

Marta Lázaro Serrano

- Licenciatura en Medicina UPV en 1999 - Especialidad Radiodiagnóstico Hospital Universitario de Cruces en 2004 - Desde entonces trabajando como médico adjunto en Servicio de Radiología, con especial dedicación al TC. - Dedicación específica a la Radiología Cardiorádica desde el año 2010 - Miembro del Comité multidisciplinar de cáncer de pulmón y del Comité de enfermedades intersticiales del hospital - Participación como docente en cursos de Radiología de tórax - Ponente en diversas jornadas y reuniones centradas en radiología Torácica - Participación en proyectos de investigación del hospital
