## Azalpena

The European Conference on Surface Crystallography and Dynamics (ECSCD) is aimed at discussing the recent advances on the characterization of dynamical processes and structure of surfaces, as well as their interplay, at the atomic length scale. The first edition of the conference took place in 1985 in Erlangen (Germany), and it has become a well established meeting point for the surface science community. In its 13th edition, it will tackle two-dimensional materials, single molecules on surfaces, characterization by LEEM and PEEM, oxides, and other representative topics of present-day surface science. Following the ECSCD tradition, networking between experimentalists and theoreticians will be encouraged, bringing together experienced and young researchers working in the field.

### Organizing Committee:

- **María Blanco-Rey (chair)** , UPV/EHU
- **Martina Corso**, CFM-CSIC-UPV/EHU
- **Aran García-Lekue**, DIPC
- **Celia Rogero**, CFM-CSIC-UPV/EHU
- **Karmela Alonso Arreche (secretary)**, DIPC

### Ikastaroaren laguntzaile espezifikoak

## Zuzendaritza

**María Blanco Rey**

Departamento de Física de Materiales, Universidad del País Vasco UPV/EHU, Personal Doctor Investigador Permanente
