## **Azalpena**

The year 2022 marks the centenary of the foundation of the International Union for Pure and Applied Physics (IUPAP). As part of the celebrations of this anniversary, the IUPAP sponsors the organization of an academic workshop and the production of an academic volume on the history of the IUPAP, broadly construed. Topics include: the role of the IUPAP in the development of physics, the connections between science and diplomacy in the work of the IUPAP, the internationalization of physics through the 20<sup>th</sup> century, the relationship and definitions of pure and applied physics within the activities of the IUPAP, the relation between global and local actions of IUPAP officers and committees, the construction of the network of international organizations in the natural sciences, etc.

## **Helburuak**

This workshop is part of the centenary of the IUPAP celebrations. The papers discussed during this workshop are preliminary versions of the chapters of an edited volume to appear in 2023 in Oxford University Press.
