

# European Meeting on Ancient Ceramics EMAC2025

**08.Sep - 12.Sep 2025**

**Cod. K11-25**

**Modalité:**

En personne

**Édition**

2025

**Type d'activité**

Workshop

**Date**

08.Sep - 12.Sep 2025

**Location**

Bizkaia Aretoa-UPV/EHU

**Langues**

Anglais

**Reconnaissance officielle par l'État**

50 heures

**Comité d'organisation**

## Description

This workshop is part of the **European Meeting on Ancient Ceramics (EMAC 2025)**, an international conference to be held in **Bilbao** from **September 10 to 12, 2025**, preceded by a Summer School on **September 8 and 9**. The event will bring together experts in **archaeology, archaeometry, and applied sciences** to present research on ancient ceramic technology, production, provenance, and conservation. Key topics include studies on raw materials, trade networks, organic residue analysis, experimental archaeology, and the development of portable non-destructive analytical techniques such as Raman spectroscopy, FTIR, and pXRF. Advanced digital methodologies, including artificial intelligence, 3D photogrammetry, and big data studies, will also be featured.

## Objectifs

To promote an interdisciplinary approach to ancient ceramic studies by integrating archaeological theories with cutting-edge technologies.

To explore and discuss innovations in raw material analysis, sustainability in ceramic conservation, and chronological techniques.

To train early-career researchers through **practical workshops**, contributing to the advancement of analytical tools for the preservation of archaeological heritage.
