Description

The Department of Mathematics of the University of the Basque Country is pleased to host the 41st International Workshop on Statistical Modelling (IWSM) at the Bizkaia Aretoa, Bilbao, Spain, from Sunday 18th July to Friday 23rd July 2027.

IWSM is the world's leading workshop dedicated to statistical modelling and one of the main activities of the Statistical Modelling Society. The workshop focuses on novel statistical modelling developments aimed at solving real-world problems. The atmosphere at the workshop is friendly and supportive, and, with no parallel sessions, IWSM offers an excellent opportunity for knowledge exchange among all participants.

Submissions to the workshop take the form of 4-page proceedings papers, enabling participants to share their ideas in sufficient detail. All papers are subject to a rigorous review process to ensure high-quality contributions in both the oral and poster sessions. We particularly encourage submissions from postgraduate students and early-career researchers.

Objectifs

Statistical modelling developments aimed at solving real-world problems.

Organisée par

Directed by

Irantzu Barrio Beraza

UPV/EHU, Associate Professor

Irantzu Barrio is Associate Professor in the Department of Mathematics at the University of the Basque Country (EHU) and researcher at the Basque Center for Applied Mathematics (BCAM). Her research focuses on statistical methodologies for biomedical and clinical research, with expertise in predictive modelling, variable categorization, and validation of prognostic scores for a wide range of diseases. As an active member of the MATHMODE research group, the RICAPPS network, and the Spanish Biostatistics network BIOSTATNET, she promotes interdisciplinary collaboration in statistical methods development. As PI, she has led competitive projects at national level (Spanish National R&D Plan), regional, and university level, alongside ongoing research contracts with Hospital Universitario de Galdakao, EUSTAT and the Basque Government. She has supervised two completed PhD theses and one ongoing, as well as numerous Master’s students. Awarded a Humboldt Research Fellowship for Experienced Researchers, Dr. Barrio conducted a research stay at the University of Göttingen (Germany) and maintains active international collaborations. She has served as Treasurer of the Spanish Region of the International Biometric Society (2020–2023).

Tarifs inscription

REGISTRATION	JUSQU'AU 30-04-2027	JUSQU'AU 16-07-2027
Student Fee with reduced SMS membership	295,00 EUR	395,00 EUR
General	510,00 EUR	680,00 EUR
